Pediatric SAFE Training

Sexual Abuse Forensic Examiner Training for Healthcare Professionals

ABOUT THE COURSE

PEDIATRIC SAFE TRAINING FOR HEALTHCARE PROFESSIONALS

The purpose of this course is to train physicians, nurse practitioners, physician assistants, and registered nurses to conduct careful and competent evidentiary examinations for children and adolescents suspected of being victims of sexual abuse or sexual assault. It places special emphasis on training examiners to follow the California Medical Protocol in the use of the CalEMA 2-925 and 2-930 forms in the documentation of injuries and the collection of evidence. The course focuses on pediatric and adolescent techniques and issues that will assist the examiner to accomplish the task in a gentle, non-traumatic manner.

COURSE GOALS

To provide participants with an understanding of:

- How the information and skills learned in this course will meet the needs of children and teens who have been acutely or non-acutely sexually victimized, as well as the needs of law enforcement and Child Protective Services (CPS)
- How to gather relevant information about the victimization that can guide the forensic examination
- How and why victimization of children and adolescents occurs and how those dynamics impact the evidentiary examination process
- Anogenital anatomy of children and teens
- How to conduct a medical forensic examination of an acutely or non-acutely sexually victimized child or adolescent
- How to collect relevant evidence according to California Medical Protocol if examining an acutely victimized patient
- The types of acute injuries likely to have occurred in the process of victimization
- The types of residual injuries that may present non-acutely
- How to document findings and procedures in a forensically defensible manner
- Guidelines for medical care and treatment following sexual assault and non-acute sexual abuse
- Guidelines that may be used in formulating forensic medical conclusions
- The California judicial system to prepare examiners to respond to subpoenas and to testify in cases of child and adolescent sexual abuse

COURSE SCHEDULE:

ONLINE TRAINING

(Participants are required to complete online training before being admitted to the classroom training)

- Introduction, CSA Overview, Epidemiology, and Reporting
- Developmental Anogenital Anatomy
- Injury Terminology, CalEMA Forms and Cases
- Dynamics of Sexual Abuse/Assault
- Forensic Interview
- Genital Findings in Pre-Pubertal Females
- Medical Findings: Acute and Non-Acute in Teens, Males, and Anal in Child Abuse

- Expert Witness Testimony

DAY 1 - Classroom Training

8:00 AM – Registration

8:30 AM to 5:00 PM

- Introduction
- Obtaining History: Prepubertal Child
- Obtaining History: Adolescent
- Examination Techniques
- Evidence Collection

Day 2 - Classroom Training

8:30 AM to 5:00 PM

- Skills Stations
- Documentation and Conclusions
- Concluding the Patient Encounter
- Examiner and Program Support

CALIFORNIA
CLINICAL
FORENSIC
MEDICAL
TRAINING
CENTER

ABOUT THE CALIFORNIA CLINICAL FORENSIC MEDICAL TRAINING CENTER

California Penal Code Section 13823.93 established the foundation and statutory authority for the California Clinical Forensic Medical Training Center (CCFMTC). Funding is provided through a grant from the California Emergency Management Agency (CalEMA). Training is provided for healthcare providers to identify, evaluate, and document injuries; to better manage the healthcare consequences of abuse; and to effectively collaborate with social services, law enforcement agencies, advocacy organizations, and the criminal justice system. CCFMTC also provides training to law enforcement officers, district attorneys, public defenders, investigative social workers, and judges on medical evidentiary examination procedures and the interpretation of findings. The Center trains medical professionals to effectively identify, evaluate and treat victims of child abuse and neglect, sexual assault, domestic violence, elder abuse, and abuse of persons with disabilities.

CONTINUING EDUCATIONAL STATEMENT

This training is sponsored by Rady Children's Hospital and Health Center - San Diego in cooperation with the California Clinical Forensic Medical Training Center, UC Davis Children's Hospital, Sacramento. Rady Children's Hospital - San Diego is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. Clinicians attending this course may report 1 hour of Category 1 CME credit for each hour of program attended. This activity was designated for 28 *AMA PRA Category 1 CME credit(s)*[™]

CA Nursing report "CME Category 1 credit" at the BRN Number.

American Academy of Physician Assistants: AAPA accepts Category 1 credit toward the AMA Physician's Recognition Award from organizations accredited by the ACCME. The AAPA has complete reciprocity with the ACCME.

CA Pharmacists: The California Board of Pharmacy accepts, as continuing professional education, those courses that meet the

standard of relevance to pharmacy practice (Section 1732.2(b) of the California Code of Regulations). This activity was designated for *AMA PRA Category 1 CME credit(s)*[™].

CA Psychologists MCEP: This educational activity is recognized by the California Board of Psychology as meeting the continuing education requirements toward license renewal for California psychologists. Mandatory Continuing Medical Education for Psychologists (MCEP) now recognizes continuing educational credit for courses accredited by APA, CME-CMA-ACCME and ABPP. Psychologists are responsible for reporting their own attendance to the California Board of Psychology.

Education Director, Sexual Assault Program, California Clinical Forensic Medical Training Center, Sacramento, CA

Classroom Faculty

Marilyn Kaufhold, MD

Other faculty to be announced.

COURSE FORMAT CHANGED

ONLINE TRAINING PRECEDES CLASSROOM TRAINING IN SACRAMENTO

This course is designed to take full advantage of both classroom and online teaching resources. 14 of the 28 credit hours of training are delivered online through a partnership with the University of California Extension Service.

The online training is a multimedia presentation that includes audio narration, video clips, flash modules, interactive activities and discussion groups. Please see course schedule for more information about the online and classroom training.

Participants are required to complete this online component before being admitted to the remaining hours of scheduled classroom training. Trainees

receive immediate access to the online training program as soon as they complete registration on the website, www.ccfmtc.org.

Innovation is the first step in making the CCFMTC courses available online in the future. We will be inviting feedback from all of our trainees to refine future course development.

Thank you for your participation in this process!

This course is made possible by a grant from

the California Emergency Management Agency (CalEMA)
