The Child and Adolescent Support, Advocacy and Resource Center (CASARC) provides forensic services, including forensic interviews and sexual assault/abuse forensic medical exams, as well as mental health services for children who were abused/assaulted in San Francisco or who live in San Francisco. CASARC will soon be hiring for (two) 2 Registered Nurse (RN) positions on our unit at the San Francisco Department of Public Health (DPH). Links to apply for both positions are here:

- **2320 RN (Permanent/Benefited) 20 hrs/week--Spanish fluency required**
  https://www.jobapscloud.com/SF/sup/bulpreview.asp?R1=CCT&R2=2320&R3=900400

- **P103 RN (As-needed/Non-benefited) 1-2 days/week**
  https://jobapscloud.com/SF/sup/bulpreview.asp?R1=TEX&R2=P103&R3=064287

The job postings are for general RN recruitment throughout the DPH and do not describe the specifics of CASARC's positions. The job duties for these 2 positions are specialized and quite different from a traditional RN role and include:

- **Primary duties**: Works with the multidisciplinary team (MDT) including law enforcement, child welfare, the District Attorney's office, and the Office of the City Attorney to schedule and collaborate around multidisciplinary forensic interviews of children/youth who are undergoing law enforcement or child welfare investigations related to sexual abuse, physical abuse, severe neglect or who are witnesses to violence. Provides expert consultation on child development and best practice in forensic interviewing. Conduct forensic interviews, which includes gathering facts and details about crimes in a legally defensible, child focused, and trauma informed way. Provides expert courtroom testimony related to forensic interviews when subpoenaed. Provides crisis intervention and referrals to mental health treatment for children/youth and their families. Assists with data tracking, collection, and reporting.

- **Secondary duties**: Assists the Nurse Practitioner/Physician Assistant Sexual Assault Forensic Examiner (SAFE) team with medical exams and the collection of forensic evidence for pediatric and adult exams.

For more information about forensic interviewing, please see this link: [https://ojjdp.ojp.gov/sites/g/files/xyckuh176/files/pubs/248749.pdf](https://ojjdp.ojp.gov/sites/g/files/xyckuh176/files/pubs/248749.pdf). We are willing to train the right candidate and no forensic interview or exam experience is required, though knowledge of child development is helpful and desired. Currently there are no night/weekend/holiday requirements, though that could change based on the needs of the department. Spanish fluency is required for the 2320 position.

Interested applicants should submit applications through the links above and contact [jessica.marques@sfdph.org](mailto:jessica.marques@sfdph.org) to learn more about the position. Qualified applicants are encouraged to apply for either or both postings.
